

LEGACY CHRISTIAN SCHOOL connection

2019-2020 | quarter two

Notes from the Principal

There is something about second quarter at school that always excites me. I'm not sure if it's the busyness of fall or the excitement of the upcoming holiday season. Here at LCS we have had a busy and full quarter with lots of things happening.

On Monday, October 21, we were privileged to have Dean Taylor, President of Sattler College visit the school and address the High School students. Dean brought LCS Alumnus Brevon Miller (2018) along and had him share a bit about his college experience at Sattler. Alumnus Toby Miller (2019) is also currently enrolled at Sattler.

One of the connections that we appreciate and seek to cultivate here at LCS is a good relationship with the churches that are represented in our student body. We have students from eighteen different churches enrolled here at LCS. October is Pastors Appreciation month, so the high school students hosted breakfast for the pastors and their wives who could make it. It was good to be able to share the vision of the school with those that attended.

The Friday before Thanksgiving I was privileged to accompany Mr. Kipp and this year's graduating class to Faith Builders Educational Programs in Guys Mills, PA for their annual open house. We were given a tour of the facility and were able to sit in on several classes to get a taste of college level courses conducted in a Conservative Anabaptist setting. A nice bonus was connecting with James Miller (2017), currently enrolled in the teacher's apprentice program at FB. James' brother Jerry is a volunteer at FB in the maintenance

department and was able to join us for lunch. After a question and answer session arranged for prospective students at FB we headed back to Sugarcreek and home.

We were also privileged to have the Elnora Bible Institute Choir join us on November 22 during our morning chapel session. With the current renovations going on in the chapel, we hosted them downstairs in the music room. I'm always blessed by these interactions with the

greater Anabaptist world. It provides a network of connections that are invaluable for our students as they contemplate life after school. If you know of a ministry or organization that would be available to visit us, please pass on the information and we'll try to accommodate.

The construction project is moving along according to schedule. It's exciting to see the project move past the mechanicals and into the drywall and painting stage. As we move along, we will be looking for patrons to help with projects as they can. If you have interest in providing labor to help keep us under budget, please call me and we'll see if we can plug you in.

Thank you for your continued support of LCS.

O give thanks unto the LORD, for he is good: for his mercy endureth for ever.
- Psalm 136:1

First Grade Quote of the Year

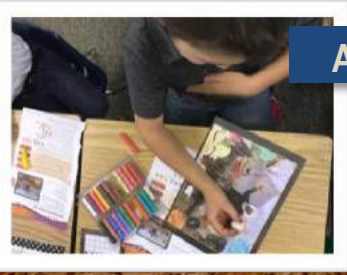

Cody while cutting out something for craft, "I'm going to cut my head off!"

Miss Jessica responds with, "Cody, I don't think we should talk like that."

Cody quickly responds with, "Why not? David and Goliath did it."

4TH GRADE NEWS

We had a special presentation on November 1st by the Sugarcreek Fire & EMS

We are thankful for...

- God
- water
- a bed
- horse
- fish & fishing rods
- parents
- doing dishes and food to eat
- Thanksgiving Day
- school friends
- 5 senses
- steak
- history
- people who encourage me
- Christmas
- dishwasher
- a kind family
- deer

Digging for seeds in Science Class

Fifth Grade

Journal Entries

Write a story about a Thanksgiving meal that takes a sudden turn

On Thanksgiving there was aunts, uncles and grandparents in a mansion. They were playing games and eating pie when all of a sudden they were no longer on earth but Mars. They were still in the same house but now on Mars. When all of a sudden...eeeeaaakkkk! They heard the sound of the oven opening and out walked the turkey. They were so astonished that they ran all the way to the moon. The turkey followed them and they soon caught it and took it back to earth. -Kate

What if you were only six inches tall?

It would be awesome being six inches tall! You could fit into a backpack and go home with your friends. A horse would probably be like a giraffe and a teacup puppy would be the size of a horse and you could ride it. You could also hide from your enemies very easily. You could make a tiny hole and crawl into it and use it as your home! There is something awful about being only six inches though...People would step on you!

- Josiah

6TH GRADE

CELLS IN SCIENCE

In science we learned about cells and how they work. Each group had to make and label all the parts of a cell.

What does a cell say when it dies and leaves you?

Answer: Cellutations

MICE MISCREANTS

This year we have been having mice problems in the church building, so we set up mouse traps. We (6th grade) have only caught four mice. I think the most interesting catch was when Olivia caught her mouse. When she saw she caught a mouse she screamed and made Mariah get it out of the trap. When Sammi started petting the mouse mouse she claimed Sammi was going to die from a disease. It was a very funny sight. - Maddie

Ironically, over this same time we were feeling sympathetic to a mouse, Mrs. Frisby. She is the heroine in our storytime book, Mrs. Frisby and the Rats of NIMH.

IT'S THE PARTY SEASON

Learning some Spanish words and phrases has been an exciting addition to our Latin America history.

Can you guess what these phrases mean?

Buenas dias

Adios

De donde eres?

Como te llamas?

Good morning, Good bye, Where are you from?, What's your name?

My Favorite Class

WRITTEN BY SARA KATE
HOSTETLER

My favorite class is definitely Bible. One reason is that my dad teaches it! :) I also love studying the Gospels this year. One thing I liked that we did in class was writing thank-you notes to people.

THE CUR8TOR

DECEMBER NEWSLETTER OF LCS 8TH GRADE

One of my greatest joys as a teacher is to see my students model attributes that I work towards as well. Participating in students' successes and failures reveal things about yourself. I am challenged to be compassionate, make wise decisions, be a leader, be a listener, and many other things.

In the last quarter the 8th graders modeled the quality of **hard work**. Whether it was raking rocks on the new soccer field, auction projects, or just being diligent without being asked, they stepped up to the task at hand time and time again.

QUARTER 2 HAPPENINGS

by Mr. Zac

The 2nd quarter is amazingly almost done! The only things left to look forward to in 2019 are the Christmas open house, Christmas banquet, and Christmas break. The tenth grade students have been working hard on their Romanian Christmas display, along with all of their regular studies. Be sure to come to the open house to see the display, marvel at the Romanian church, sample Romanian pastries, and be caroled for by ambitious 10th grade Romanians!
